EXPERIENCE

GeckoSolutions, Inc. | 16 June 2025 – 29 July 2025

Software Developer Intern

- Improved an existing web system by implementing new features and enhancing UI design.
- Assisted in data encoding and system population for a school library management system.
- Collaborated with team members to support software development tasks and meet project deadlines.

Graphic Designer | 2023 – Present

- Designed logos, branding materials, promotional graphics, apparel, banners, and print-ready layouts for organizations, businesses, and community events.
- Created user interface designs, wireframes, and visual assets for web and mobile applications.
- Collaborated with clients to deliver designs that met requirements and deadlines.

PROJECTS

DIIN System (IoT-enabled Mobile Application and Web)

Project Lead | Thesis Project

Technologies: React, React Native, TypeScript, JavaScript, HTML/CSS, Supabase, REST APIs, GTO6 GPS Tracker

- Developed an IoT-based bus monitoring system that provides commuters with real-time bus location tracking and estimated time of arrival (ETA).
- Built the web and mobile applications using React and React Native with Supabase as the backend.
- Designed the application's logo and user interface using Photoshop and Figma.
- Led the project team from planning and development to testing and deployment.

IDFAi

Project Member | Frontend Developer

Technologies: React, React Native, TypeScript, JavaScript, HTML/CSS, Python

- Developed the frontend interface of an AI-assisted identification verification system using React.
- Built responsive user interface components for scanning and displaying ID verification results.
- Collaborated with the team to integrate frontend and backend features.
- Designed the application's visual identity using Photoshop.

KaonBrader Recipe Sharing Website

Project Lead | Full-stack Developer

Technologies: Laravel 11/12, PHP, MySQL, HTML, CSS, JavaScript

- Developed a full-stack recipe-sharing web application with user authentication.
- Designed the application's logo and user interface using Photoshop and Figma.
- Implemented responsive web pages and integrated backend functionality using Laravel and MySQL.
- Led project planning and coordinated development tasks with team members.

EDUCATION

Bachelor of Science in Computer Science – Cum Laude
Bohol Island State University | 2022-2026

AWARDS &

RECOGNITIONS

DOST Scholar
Civil Service Exam (Professional Level) Passer – 2026
